

1993 Cobra Registry

The rebirth of an icon

Welcome to the 1993 Mustang Cobra Registry. Our objective is to try and accurately keep track of the 93 Cobra. Ford only made a total of 5100 including the R version and unfortunately, no one really knows how many are left of the original total. After 13 years, there have been some thefts or casualties that make the remaining survivors that much rarer.

So if you are fortunate enough to own one of these awesome cars, please take the time to submit your information and hopefully as a group, we can find all 5100 Cobras, whether they are dead or alive.

Thanks for visiting!
